Examining Trial of R. E. Lindsey Charged with Killing D. L. Ward—Testimony in Full.

John Callins, sworn, was the man in the attitude of fighting. Ward is the largest man of the two. I am satisfied of that. He is tall, thin, and has a very large head. Ward got on the upper side of Ward, struck Lindsey on the left side of the face. Immediately after the blow, the shot was fired. Ward staggered toward Davison's boot store, and then turned and went into the Postmaster office. Both of them were in the office, and Ward made a dash for the street. Some one who fired the shot, and Lindsey replied that he did. I examined the pistol, and found one barrel was empty. Lindsey gave back under the blow. He was mowed down at his feet, and said that Ward had struck him.

The Buchanan—I examined the body; found a pistol wound in the left breast, above the nipple. The ball was passed nearly through the body. (The ball was shown.) I got the pistol from Mr. Callins.

S. C. Williams—Ward and I were talking of leaving town. We were on the steps of the old Masonic Hall; Ward was standing up. He accosted Lindsey as he was passing by. He had risen to speak to him. I expected a quarrel. Lindsey called out a general name, and then said, "Lindsey and I have been shooting blindfold and shot." It was an ordinary talk, rather light. I came to Louisville on last Wednesday week; know the deceased for three years. I believe I heard Lindsey say, "Ward I have no objection against you." I have no objection against the deceased inasmuch as he is a good man.

Ward—Ward said that Lindsey had said that he would get a situation in the Courier office, if he (Ward) could get a situation in the Courier office, he would take it.

Henry Baker—I was standing behind the counter at Mr. Miller's cigar store. Heard Ward say, "I don't care if I get a situation in the Courier office, or not. I have a good name. I looked out again, I heard the shot, and saw Lindsey put the pistol in his pocket. The conduct of Ward was very vehement; Heard him make no threats against Lindsey.

A. J. Barrington—I was in Mr. Miller's cigar store; Messrs. Ward, Bridges, and myself. There was a two word out and saw Lindsey raise the pistol, take deliberate aim, and shoot. When I first saw him he had the pistol in his hand. After the fire he dropped it and stepped up and vanished about the place.

George Shepard—I was on the other side of the street when the difficulty occurred. I stopped on the corner of Third; I saw Mr. Lindsey come down the street; a West Shaw shaking his finger in Lindsey's face; they were standing close together; there was great disorder. I heard the shot; Ward was the taller man of the two, just as he was passing by. I heard the pistol discharged at the time; Mr. Ward looked to weigh about one hundred and sixty pounds. I saw Mr. Lindsey at the custom-house; he told me he had had a trial with Ward. Ward was looking for him to whip him. Shear, Shepherd, Shad, and Mearns were present.

E. W. Merrell—At about 6 o'clock on Thursday evening Ward said to me that he had heard of Lindsey was talking about him, and that Ward was hunting him up in town on Friday at dinner time. I saw Mr. Lindsey at the custom-house. I asked Mr. Ward what he (Ward) had said. Ward said he had been watching for him, that when he saw him he would "haul him in two," and called Lindsey a son of a b— and a d—doughy; I heard Mr. Lindsey say on one occasion that he did not wish to have a trial with Ward, and that he would let him go. I heard him say, "This witness corroborates the testimony of the last one in regard to the fight; I never heard Lindsey say anything against Ward; saw Mr. Ward come out, and draw something from his breast. Do not know whether it was a pistol or not."

John Johnson—Saw Lindsey draw a pistol and shoot Ward in his breast; the pistol was about two feet from Ward's breast.

George V. Johnson—I frequently heard Ward make threats not only against Lindsey but against others, I think nothing of it.

R. H. Chapman—Lindsey's father was a member of the Kentucky Whig, at Mt. Sterling; heard his character that of a quiet, peaceful man.

Lindsey was held to bail in \$1,500 to answer.

The Brinly celebrated Steel Plow is on exhibition at the Southwestern Agricultural Fair Grounds, manufactured by F. T. Davis, Louis ville, Kentucky. Those plows that are on exhibition, are manufactured of the best steel and are happy to learn, that Mr. J. T. Davis, formerly the master of the Giant Plow Manufacturer and Inventor, J. E. C. Bandy, has moved to this city, and is now in full operation, and is manufacturing this great plow, which has taken seventy-eight premiums, both at State and county fairs; also two of the first premiums at the United States Fair, held at the fair grounds in Jefferson county, last year, for its lightness of draft and its superiority in turning under the turf; it has also attached to it a grass hook, for the purpose of turning under weeds, grass, or stubble, in such a manner, that it is a great benefit to the soil, and will immediately rot and become good manure, thereby enriching the earth. This plow is far superior to all others in use, and every farmer and planter should have it on his farm.

Mr. Wager, one of the judges at the United States Fair, held near this city, in the year 1857, admired this celebrated Brinly plow so much, that he took one on to New York with him, saying that it was the best plow, and did the best plowing he had seen in all his travels, both in Europe and America. The draft of this plow is equal to 400 pounds, and turns over the smoothest and neatest furrow we have ever seen plowed. Farmers and others interested in the progress of great and useful inventions, will do well to examine it. Surely, with us, all will be forced to, as this plow justifies, that it is the best plow now extant, both in superior workmanship, great strength and durability, and its easy draft. Mr. J. T. Davis will be at the fair grounds every day this week, with these celebrated plows, prepared to show their superior advantages over all others. He is the manufacturer, and has the county right of Jefferson county. His manufacture is adjoining the City Foundry on Main street, where all orders will be promptly filled.

River Intelligence.
The river is receding very slow, with inches water by the mark in the canal.

BUSINESS.—The Marine brought from Cincinnati 150 pigs soda, 100 lbs butter, 100 lbs flour, 22 pairs drapery, 25 drams wash, 72 lbs wine.

We glean the following items from the St. Louis Democrat and the Republican of the 27th.

The river continues to fall steadily. All the higher streets are receding, leaving the low lands. The river is now at 100 feet above the sea level. The Illinois is in good bearing stage and the Ohio is at 100 feet above the sea level. There is no just cause for complaint to the master of the steamer, and confidence of freight owners in the safety of the vessel.

Kentucky State Fair,
FIRST DAY.

Below we give a list of the premiums given by the State Fair, held on the grounds of the Southwestern Agricultural Association. It was a beautiful day, and though the attendance was not as large as might have been expected, still it was quite extensive, and the crowd appeared to enjoy themselves exceedingly. To-day the fair will be much better attended, as some of fine horses will be shown.

The order of exhibition will be as follows:

CLASS A—CATTLE.

BULLS—Four years old and upward, 1st premium \$30, 2d \$20—There was a great many entries in this ring. R. A. Alexander of Woodford, first premium, \$30; J. S. Scott, of Jefferson county, second premium, \$20.

DAILY DEMOCRAT.

READING MATTER ON EVERY PAGE.

We have several communications touching on political and other letters and correspondence almost without exception from our friends, which we can find room for them. The Agricultural and Mechanical Fairs are now holding, none being our concern to the exclusion of everything except the current news of the day.

The streets were fairly alive with the populace last night, and the principal amusements were crowded.

To THE LEADER.—If you want to save 50 cent and a lot of time, go to P. T. Taylor & Co., 403 Main street, Louisville, the United States Hotel, and get one of their style Party dresses. See other item in another column.

807 We publish this morning a full-page of the testimony in the case of E. R. Lindsay, charged with killing B. L. Ward, on Third street last Saturday. He was held to bail in \$1,000 to answer to the charge of manslaughter.

807 Lower—Since your sweet-sister's illness while at the Fair, when her face is radiant with pleasure, you will find Shaw's tailor near the Plaza Hall on the Fairgrounds or in the city, over the Telegraph office, where note but No. 1 pictures are turned out.

807 Come, Mother, of Lexington, is present in the hall, attending the exhibition of the Kentucky State Agricultural Society.

Jeffersonville Railroad.

On and after Monday, July 12, 1852, trains on the Jeffersonville Railroad will leave Jeffersonville, opposite Louisville, at 6:30 a. m., 11:30 a. m., and 10 p. m., daily. St Louis, Mount Pleasant, Cairo, Jefferson City, Kansas, Quincy, and Keokuk.

Closes connections made by the 10:50 a. m. and 10 p. m. trains at Seymour, with trains on the Ohio and Mississippi R. R., for St. Louis, Mount Pleasant, Cairo, Jefferson City, Kansas, Quincy, and Keokuk.

The 6:30 a. m. and 10 p. m. trains run through to Indianapolis, and form close connections with trains on the Terra Haute, Lafayette, Peru, Bellfontaine, and Indiana Central Railroads, for all the principal cities in the East, West, and North.

The 10:50 a. m. and 10 p. m. trains connect at Seymour with trains on the Ohio and Mississippi Railroad for Cincinnati.

The 10 p. m. train on Saturdays only goes to Seymour, where connections are made for Cincinnati and St. Louis.

Our train on Sunday, at 10 p. m., running through to Indianapolis, connecting at Seymour for St. Louis and Cairo, also Cincinnati and the East, and at Indianapolis for the principal cities East, West, and North.

Only one change of cars between Louisville and Cincinnati, St. Louis, and Cairo, the principal cities. All cars made by trains running into the same depots, thereby avoiding annoying omnibus rides incidental to other routes leading from the West to the West and Northwest. Time as quick and fare as low as any otherwhere.

For rates and further information given at the Company's Office, No. 227 southeast corner of Main and Third streets, Louisville, Ky., or at the depot in Jeffersonville.
